## SUMMARY

A graduate of BS Information Technology with a 1.43 GWA and currently full-stack developer with 2 years of professional experience, currently serving as an end-to-end product developer at Perzeus Corporation. Experienced in building and deploying web applications from system design through production, with a focus on Laravel and Livewire. Handles full lifecycle development including backend architecture, frontend integration, and server management.

---

## WORK EXPERIENCE

**Full Stack Developer** | Perzeus Corporation

**June 2025 - Current**

- Spearheaded the full lifecycle of web application development, from product conception and system design to deployment and server management.
- Design and develop backend systems using Laravel and Livewire, ensuring maintainable architecture and efficient data handling.
- Build responsive user interfaces using TailwindCSS or Bootstrap, integrating seamlessly with backend logic.
- Deploy and manage production environments using CloudPanel and DigitalOcean, including server configuration, monitoring, and performance optimization.
- Implement and maintain MySQL database structures, optimizing queries for reliability and scalability.
- Collaborate with stakeholders to translate business requirements into functional, production-ready systems.
- Partner directly with the company owner in improving internal workflows and operational efficiency.

**Web Developer** | Freelance

**February 2025 - Present**

- Build and deliver websites and web applications for small businesses and individual clients, tailoring solutions to varied business and functional requirements.
- Manage projects and producing maintainable and client-ready deliverables for real-world use.

**Junior Web Developer** (Part time) | Pixzel Digital

**May 2024 - July 2025**

- Contributed to the development of BizSmart Resto, a restaurant management system supporting inventory management, cashier POS, ordering workflows, and transaction processing.
  - Worked closely with a Senior Developer on both front-end and back-end implementation, helping deliver multiple modules and operational features.
- 

## NOTABLE PROJECTS

### Perzeus Corporation Website

- Built and deployed the company website using Astro and TailwindCSS, with emphasis on performance, maintainability, and consistent content delivery.
- Implemented CI/CD workflows with GitHub Actions to support streamlined deployment and release management.

**Tech Stack:** Astro, TailwindCSS, Git, GitHub Actions

### **Peddlero**

- Built a full-stack operations system for a Coca-Cola distributor to modernize reporting and sales workflow management.
- Delivered measurable business impact by enabling 90% faster reporting, improving sales data accuracy, and reducing manual paper-based workflows by 95%.

**Tech Stack:** Laravel 12, MySQL, JavaScript, Axios, Bootstrap 5, CloudPanel, DigitalOcean, Git, GitHub Actions

### **Ledgr**

- Developed a full-stack bookkeeping management system to streamline financial operations and client-facing workflows.
- Automated invoice and statement of account generation, improved document retrieval efficiency, and simplified reporting across service sales, expenses, and related financial activities.

**Tech Stack:** Laravel 13, Livewire, AlpineJS, Bootstrap 5, MySQL, CloudPanel, DigitalOcean, Git, GitHub Action

### **BizSmart Resto**

- Supported development of a restaurant management platform as a Junior Web Developer, contributing across Inventory, POS, Cashiering, and Transactions modules.
- Delivered front-end and back-end features in close collaboration with a Senior Developer within a live product environment.

**Tech Stack:** Laravel 10, jQuery, Ajax, Bootstrap 5, MySQL, Git

### **The Witness Well**

- Currently developing a full-stack content platform for publishing and organizing faith-based testimonies and reflections.
- Contributing ongoing product implementation for a structured publishing experience and content organization workflow.

**Tech Stack:** Astro, TailwindCSS, DaisyUI, AlpineJS, Git, GitHub Actions

### **Infratrak**

- Serving as Lead Developer for an ongoing full-stack project management system focused on tracking infrastructure projects and progress.
- Driving application development for project visibility, workflow coordination, and progress monitoring.

**Tech Stack:** Laravel 13, Livewire, AlpineJS, Bootstrap 5, MySQL, CloudPanel, DigitalOcean, Git, GitHub Actions

---

## **EDUCATION**

**Bachelor of Science in Information Technology Major in Database Systems**

**2020-2024**

**Magna Cum Laude** | 1.43 GWA

College of Computer Studies

Mindanao State University - Iligan Institute of Technology

Iligan City, Lanao del Norte 9200

---
